WORK EXPERIENCE

DICT Regional Office IX and BASULTA

Web Developer Intern

Zamboanga City, PH

Mar 2026 - Apr 2026

- Co-developed and deployed a web-based [Flag Raising Attendance and Compliance Checker](#) in PHP and MySQL for 50+ employees at the Management Information Systems Service, implementing role-based admin and employee access, employee management CRUD, and browser camera capture for timestamped attendance verification.
- Designed the MySQL schema and built the reporting layer with DataTables and Chart.js dashboards, using PDO prepared statements for query safety; ran functional testing and QA before production rollout after HR approval.
- Served as a resource speaker for DICT's OJT 2.0 webinar, presenting Google Workspace and Gemini AI workflows for a digital office environment to 100+ attendees.

PROJECTS

[RECYCOIN: A Reverse Vending Machine \(RVM\) for PET Bottle Collection with Points](#)

Feb 2026 - Jul 2026

[Reward System](#)

- Built a reverse vending machine that detects and size-classifies clear PET bottles from 250 mL to 1.5 L using YOLOv8n through TensorFlow Lite with OpenCV and Python on a Raspberry Pi 5.
- Developed the localized web application on a LAMP stack (Linux, Apache, MariaDB, PHP), served over a self-hosted Wi-Fi access point with DHCP and captive-portal DNS redirection, letting residents connect by QR code with no app install or internet.
- Deployed at Barangay Tetuan Hall under Scrum and evaluated by 395 participants, earning a 4.49/5 weighted average across usability, functionality, and accuracy; registered with the Philippine Health Research Registry (ID PHRR260826-010554).

ReadySetHire: AI-Powered Interview Preparation App

Aug 2025 - Nov 2025

- Built a cross-platform mobile app in Flutter and Dart with Firebase Authentication, email verification, and Cloud Firestore, delivering AI mock interviews at three seniority levels through the Gemini API.
- Implemented voice-based interview practice with live speech-to-text transcription and text-to-speech playback, plus a text chatbot mode, both returning scored feedback on communication, soft skills, strengths, and weaknesses.
- Developed a resume builder exporting formatted PDFs, a timed situational-judgment aptitude game, and a progress dashboard charting performance across sessions.

EDUCATION

Universidad de Zamboanga

Bachelor of Science in Computer Engineering

Zamboanga City, PH

Sep 2022 - Sep 2026

- President (2025–2026) & Vice President (2024–2025), Institute of Computer Engineers of the Philippines – Student Edition (ICpEP.SE), UZ Chapter

CERTIFICATIONS

IBM Professional Certificates - [Full Stack Software Developer](#); [DevOps and Software Engineering](#); [iOS and Android Mobile App Developer](#); [AI Developer](#); [Cybersecurity Analyst](#) (2024)

Google Professional Certificates - [UX Design](#); [IT Support](#); [IT Automation with Python](#); [Advanced Data Analytics](#) (2024); [AI Specialization](#) (2025)

[Hands-on Internet of Things Specialization](#) - [University of Illinois](#) (2025); [Akamai Network Engineering Specialization](#) (2024)

National Certificate II - Computer Systems Servicing - TESDA (2025)

Safety Officer II - Occupational Safety and Health Center (2025)

TECHNICAL SKILLS

Languages: PHP, Python, Dart, JavaScript, SQL, HTML/CSS

Frameworks & Platforms: Flutter, Firebase, LAMP (Linux, Apache, MariaDB/MySQL), jQuery, Bootstrap

ML & Embedded: YOLO, TensorFlow, OpenCV, MediaPipe, Raspberry Pi

Tools & Methods: Git, GitHub, DataTables, Chart.js, Scrum/Agile

Networking: TCP/IP, DHCP, DNS, subnetting, wireless access point configuration, LAN setup and troubleshooting
